

West Virginia can ensure more energy efficient and resilient homes and businesses by adopting the latest building energy codes, which lower utility bills, improve resilience to natural disasters, improve construction quality, create local jobs and support workforce training for West Virginians.

West Virginia can expect to see the following impacts by adopting and implementing:

	Energy Savings	Emission Savings	Energy Cost Savings
Latest Model Energy Codes	0.07 Quads in energy savings	11 MMT of CO ₂ emission reduction	\$1 billion in energy cost savings
Zero Energy Codes	0.58 Quads in energy savings	94 MMT of CO ₂ emission reduction	\$3 billion in energy cost savings

Additional resources are available such as tax credits, Home Electrification Rebates, Home Efficiency Rebates, implementation support, and other cross-cutting assistance to help West Virginians offset their costs. Learn more at energy.gov/save
